

ARM SUPPORT EFFORTLESS AND INTENSIVE USE

The Ripack arm support provides relief during intensive use of the RIPACK 3000 shrink gun with an extension.

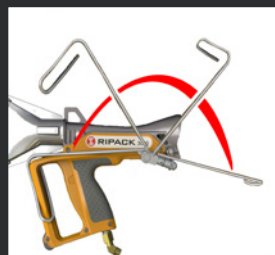

It distributes the load of the Ripack 3000+ over the entire arm and no longer only on the wrist. This makes shrinking work more comfortable. In addition, it is more comfortable to use due to its silicone coating.

Its ergonomics have been designed to reduce RSI (Musculoskeletal Disorders).

The holder is easy to install and practical. It can be folded and unfolded in seconds, so you can use the shrink gun with or without an extension. A lock secures this action.

TECHNICAL SPECIFICATIONS

Item code	N°249076
Coating	Non-slip silicone
Length/Width	9,65" x 4,72" - 245 x 120 mm
Weight	10,58oz - 0,300 Kg
Package dimensions	11,02" x 7,48" x 2,36" 280 x 190 x 60 mm
