

MULTICOVER 940 / 950
MANUAL SEALERS

With the Multicover 940 and 950 film sealers. Ripack makes it possible for you to make your own covers.

The heat produced by your shrink gun together with the design of these Multicover sealers produces a strong seal suitable for protecting your goods.

Simple and easy to use, the range of Multicover sealers means it is finally possible to have tailor-made covers for your goods. It is no longer necessary to stock different lengths of covers and cut them on unsuitable surfaces.

This range of equipment will meet your requirements.

The MULTICOVER 940 and 950 make it possible, from rolls of polyethylene film, gusseted tubing, plain tubing, folded film or plain film, to make covers and envelopes in a variety of heights and formats.
